KID INVENTORS' WEEKEND PASSPORT

Welcome to Kid Inventors' Weekend at Hagley!

Explore Hagley, collect passport stamps, and show your completed passport at the Hagley Store for a free prize!

Visit the Hagley Store for 15% off a single purchase!

Welcome to Kid Inventors' Weekend at Hagley! Discover America's legacy of innovation as you explore the two floors of Hagley's Nation of Inventors exhibit.

Throughout the exhibit are interactives and hands-on activity carts. Continue to the DuPont Discovery Loft on the third floor of the Visitor Center to make your own invention and take apart electronics. Walk or take a shuttle through Hagley's powder yard to robotic demonstrations at the Power Plant and then enjoy black powder and machine shop demonstrations at the Millwright Shop. On Workers' Hill see how working families lived in the 19th century.

At each location you can receive a stamp on this passport. Return the passport with at least four stamps to the Hagley Store for a free prize.
