

Hagley Field Trip From Home (page 1 of 2)

Brandywine Manufacturer's Sunday School

Welcome to Hagley Museum and Library, the site of the original DuPont Company powder yards! Today we are visiting the Brandywine Manufacturers' Sunday School. During our visit we will learn how the children of factory workers went to school in the early 1800s. Follow along with our tour guide, Alex, as he shows some of the lessons taught here. While watching the video, please answer these questions.

(Video link: hagley.org/field-trip-sunday-school)

1. The factory children went to school only on Sundays. Please circle what they were doing the rest of the week.

A) Working at a factory

C) Doing chores at home

B) Working on a farm

D) Any of the above

2. How many rooms are in the Sunday School? _____

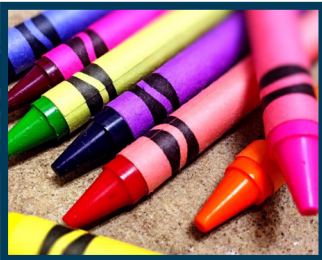

3. Finish this sentence: The students in the Sunday School sat...

A) All mixed together in the room

B) With boys on one side and girls on the other side of the room.

4. What did students use to write in the early 1800s?

A) CRAYONS

B) MARKERS

C) QUILL PEN

5. "Ciphering" is an old term for what? _____

6. Victorine du Pont Bauduy started the Sunday School in 1817. Her younger sister, Sophie, drew this picture of the inside of the school. Draw a picture of your classroom in the box below or a separate sheet of paper. Share your drawing with the hashtag #HagleyFromHome and it might show up on Hagley's Facebook page! (Get a parent's permission first, or ask them to share it for you.)
