

Hagley History Hangouts • SUMMER 2022

Casual Chats About Cutting-Edge Research

HISTORY HANGOUTS are pre-recorded virtual events released every two weeks by the Center for the History of Business, Technology, and Society. Each features an in-depth conversation with an author, researcher, or staff member about historical events documented in Hagley's collections. They are conducted by Center Director Roger Horowitz, Program Officer Gregory Hargreaves, and Oral Historian Benjamin Spohn.

Each History Hangout recording is released on the date listed and will remain available subsequently.
