# Hagley's Summer Camps

Lost Arts and Skills Camp  
Gears, Engineers, and Science Frontiers Camp

Week-long camps for kids 7-12 years old.

"It's very cool and fun, the best camp I have been to."

We fished in the Brandywine!

We learned about life in the nineteenth century!

"My son really liked the camp and I was impressed with how much he learned."

## Lost Arts and Skills Camp

It took how long to do laundry? Supermarkets didn't exist? Before shopping malls and fast food, children learned to make their own clothes and toys, prepare snacks from fresh ingredients, work with wood, fish, and master many other "lost arts." Each day campers will discover the tasks and activities that families did regularly in the 1800s.

Session 1 • July 10-14, 2017 • Ages: 7-10

Campers spend lots of time outside with hands-on activities!

We made some really cool crafts!

Learning things together made it easy to make new friends!

We learned about local plants and growing food!

"It was a lot of fun because I was outside and getting exercise instead of sitting around on the couch watching tv."

# Gears, Engineers, and Science Frontiers Camp

Make a smoothie using a bicycle. Design a structure to withstand a hurricane or earthquake. Discover the secrets behind fireworks. Win a game of tug-of-war against the rest of the camp. Campers take on daily engineering challenges, while conducting experiments to uncover the mysteries of polymer science. They will see how technology has changed over time from water power to solar power. A highlight of the week is a field trip to the Franklin Institute.

**Session 2 • July 31-August 4, 2017 • Ages: 10-12**

*We took on a challenge and built waterwheels!*

**"I learned that water can push sixteen tons of metal."**
